Sir:

The above-identified Continuation-in-Part Application was filed on July 30, 2003. Because we did not timely receive the date stamped postcard back from the U.S. Patent and Trademark Office, on October 28, 2003, the undersigned filed a Request for Early Notification of Serial Number, together with a duplicate copy of the Continuation-in-Part Application that was originally filed on July 30, 2003.

Subsequently, the undersigned received an Official Filing Receipt mailed October 29, 2003, a Notice of Recordation mailed February 24, 2004 and Notice of Publication of Application received February 24, 2004.

The undersigned received an Official Filing Receipt mailed January 27, 2004 assigning a new Serial Number 10/694,182 and a new filing date of October 28, 2003. The undersigned later received a Notice of Publication of Application received February 24, 2004. The resubmission of a copy of the Continuation Application was not intended to be a new application, but was resubmitted in support of the Request for Early Notification of Serial Number.

Applicants: Jürgen ANGELE
Appln. No.: 10/629,587

It is respectfully submitted that new Serial Number 10/694,182 was issued in error. It is requested that Serial No. 10/694,182 be canceled and that the original Serial Number 10/629,587 assigned to this application be maintained. Please advise the undersigned accordingly.

Respectfully submitted,

Date: June 1, 2004
